## Quickbund Portable Bunding

The Australian made Quickbund Portable Bunding System provides a safe and secure area for dealing with a wide range of liquids including acids, caustics, oils & fuels.

Manufactured from heavy duty XR-5, the high-frequency welded seams ensure no leaking and provide maximum strength.

The fold down walls allow for vehicle and forklift access.

The Quickbund can be erected in seconds without the need for tools. Simply position and unfold.

The Quickbund can be built to your meet your specific requirements.

Because it is so lightweight and portable, the Quickbund is ideal for all field applications including drill rigs, generators, refuelling & transformers.

The Quickbund can be fitted with a portable oil/water filter for outdoor use.

## Need help with a spill?

Whether it be mopping up small volumes of liquid, containing the environmental threat of petrol spills, or preparing for hazardous situations — it is essential to optimise the way your company handles spills and accidents.

### Absorbents

#### For effective spill clean-up and containment.

Use our range of absorbents to clean up and contain a huge range of spills – from oils to hazardous waste. The absorbents range includes powdered absorbents, pads, socks, booms, and wipes.

### Spill kits

#### Do you have a high risk of spills?

Designed to clean up spills in any high-risk area, our spill kits have everything you need to absorb and contain all kinds of spills. Spill kit refills are also available.

### Containment

#### Need to stop the spread?

Our range of spill containment hardware products can keep rapidly spreading spills under control, as well as contain leaks within a specified area.

### Remediation

#### Harmful chemicals leaking into soil?

Decontaminate soil with our dual purpose fuel absorbent and bioremediation agent. Naturally-occurring bacteria are used to break down a contaminant until it is no longer harmful.
